"My husband and I had the good fortune to have Richard Hebert as our real estate agent when we recently bought a new home. Having gone down this path before, I can honestly say he is the best we have worked with. He is thorough, patient, accessible, knowledgeable and most importantly: he researched the home we ultimately bought from all angles so that we really knew what we were buying. I would highly recommend him to anyone."

Kit Sagen, Homebuyer, November 12, 2013

"Richard was our realtor this year when we bought a property in SCVCC. It was a difficult transaction as there was no lender involved. Richard was able to guide us through the process and responded to every question we had, went out of his way to take photos for us, (we live 4 hours away). He truly represented our interests and is not a high pressure pushy salesperson. We successfully closed our escrow as planned and are very happy with his service to us. We would be happy to work with him again. "

Kimberly Carlton, Investor, October 17, 2013

"Rich has proven himself to be knowledgeable, personable, and persistent in helping us accomplish our real estate objective. He spent time with us to establish a personal connection and really understand what we wanted, and provided a great deal of information about current market conditions and options within our areas of interest and budget. He has stayed on top of the process over the lengthy period it's taking to finally get a deal closed, and has done a great job

keeping things moving along with all the counterparts in the process. He provides useful advice while respecting the final decisions of the client, and overall he's been great to work with. He's a true professional and also just a really nice guy. He has done everything his job entails, and then some – which is why I would highly recommend him to anyone looking either to buy or sell their property.”
